

Meritor Parts

Meritor Parts - The Meritor Company is a premier global supplier founded upon one hundred years of custom of quality and service. Meritor specializes in integrated systems with several modules and components to the original machinery makers and aftermarket equipment in the transportation and industrial trades.

Meritor values the wishes of their customers to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their competitive advantage in their global operations. Meritor starts with a tradition that values diversity of people and their broad thought processes. Operating in 19 countries and hiring more than 11,200 individuals, Meritor promotes innovation and collaboration among a team of knowledgeable professionals.

Meritor strongly believes in just hiring future focused staff. These top-caliber individuals can quickly get used to to changing surroundings and freely demonstrate the level of performance and commitment required so as to attain results for the competitive market environment. The company empowers their teams to make sound business decisions in order to improve the overall success of the company. In return, Meritor offers all their employees different opportunities for personal and professional growth.

The Advanced Engineering team is on the forefront of components and system engineering. This includes axles, drivelines, suspension and braking systems for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is also responsible for supporting the needs of their worldwide engineering workers.

The Quality team at Meritor is a dynamic and customer-focused group which is committed to ensuring optimum progress at their production plants and aftermarket distribution facilities which are located on 5 continents and in 19 countries.

The supplier development network is specially situated to be able to support new business development. Regional teams are supported by worldwide centralized specialties, initiatives and quality systems in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making within each aspect of the business. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is also comprised of transactional Green Belts who utilize Six Sigma tools to business techniques and implement lean techniques.
